VITAL STATISTICS

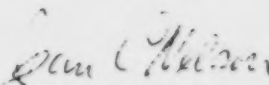

ANNUAL REVIEW

1975 and 1976

I am pleased that the Division of Vital Statistics has recommenced the publication of its Annual Statistical Review. The information base from which the statistics have been compiled is being actively used to provide research data for our department and such related services as the Local Health Authorities and the Provincial Cancer Hospitals Board.

I anticipate that the publication of these statistics will fill the void left since they were last published in 1970 and awaken an interest in the research services offered by the Division.

Deputy Minister, Health Services

Community Health

Introduction

This publication is a summary of the Vital Statistics of the Province of Alberta for the years 1975 and 1976, as of April 1, 1978.

Vital Statistics data is customarily published on a residency basis. That is, it is desirable for the Vital Statistics for a given area to include events occurring to residents of that area regardless of where the event actually took place. However, in the absence of data on out-of-Alberta events for Albertans in 1975 and 1976, this publication is restricted to events occurring in Alberta. The inclusion of out-of-province events would result in approximately a 2 per cent to 4 per cent variation.

The 1975 and 1976 Vital Statistics tables for Edmonton and Calgary have already been published in the Annual Reports of the respective Local Boards of Health.

The cause-of-death codes used are the Eighth revisions of the ICD and A-code, Causes for Tabulation of Morbidity and Mortality.

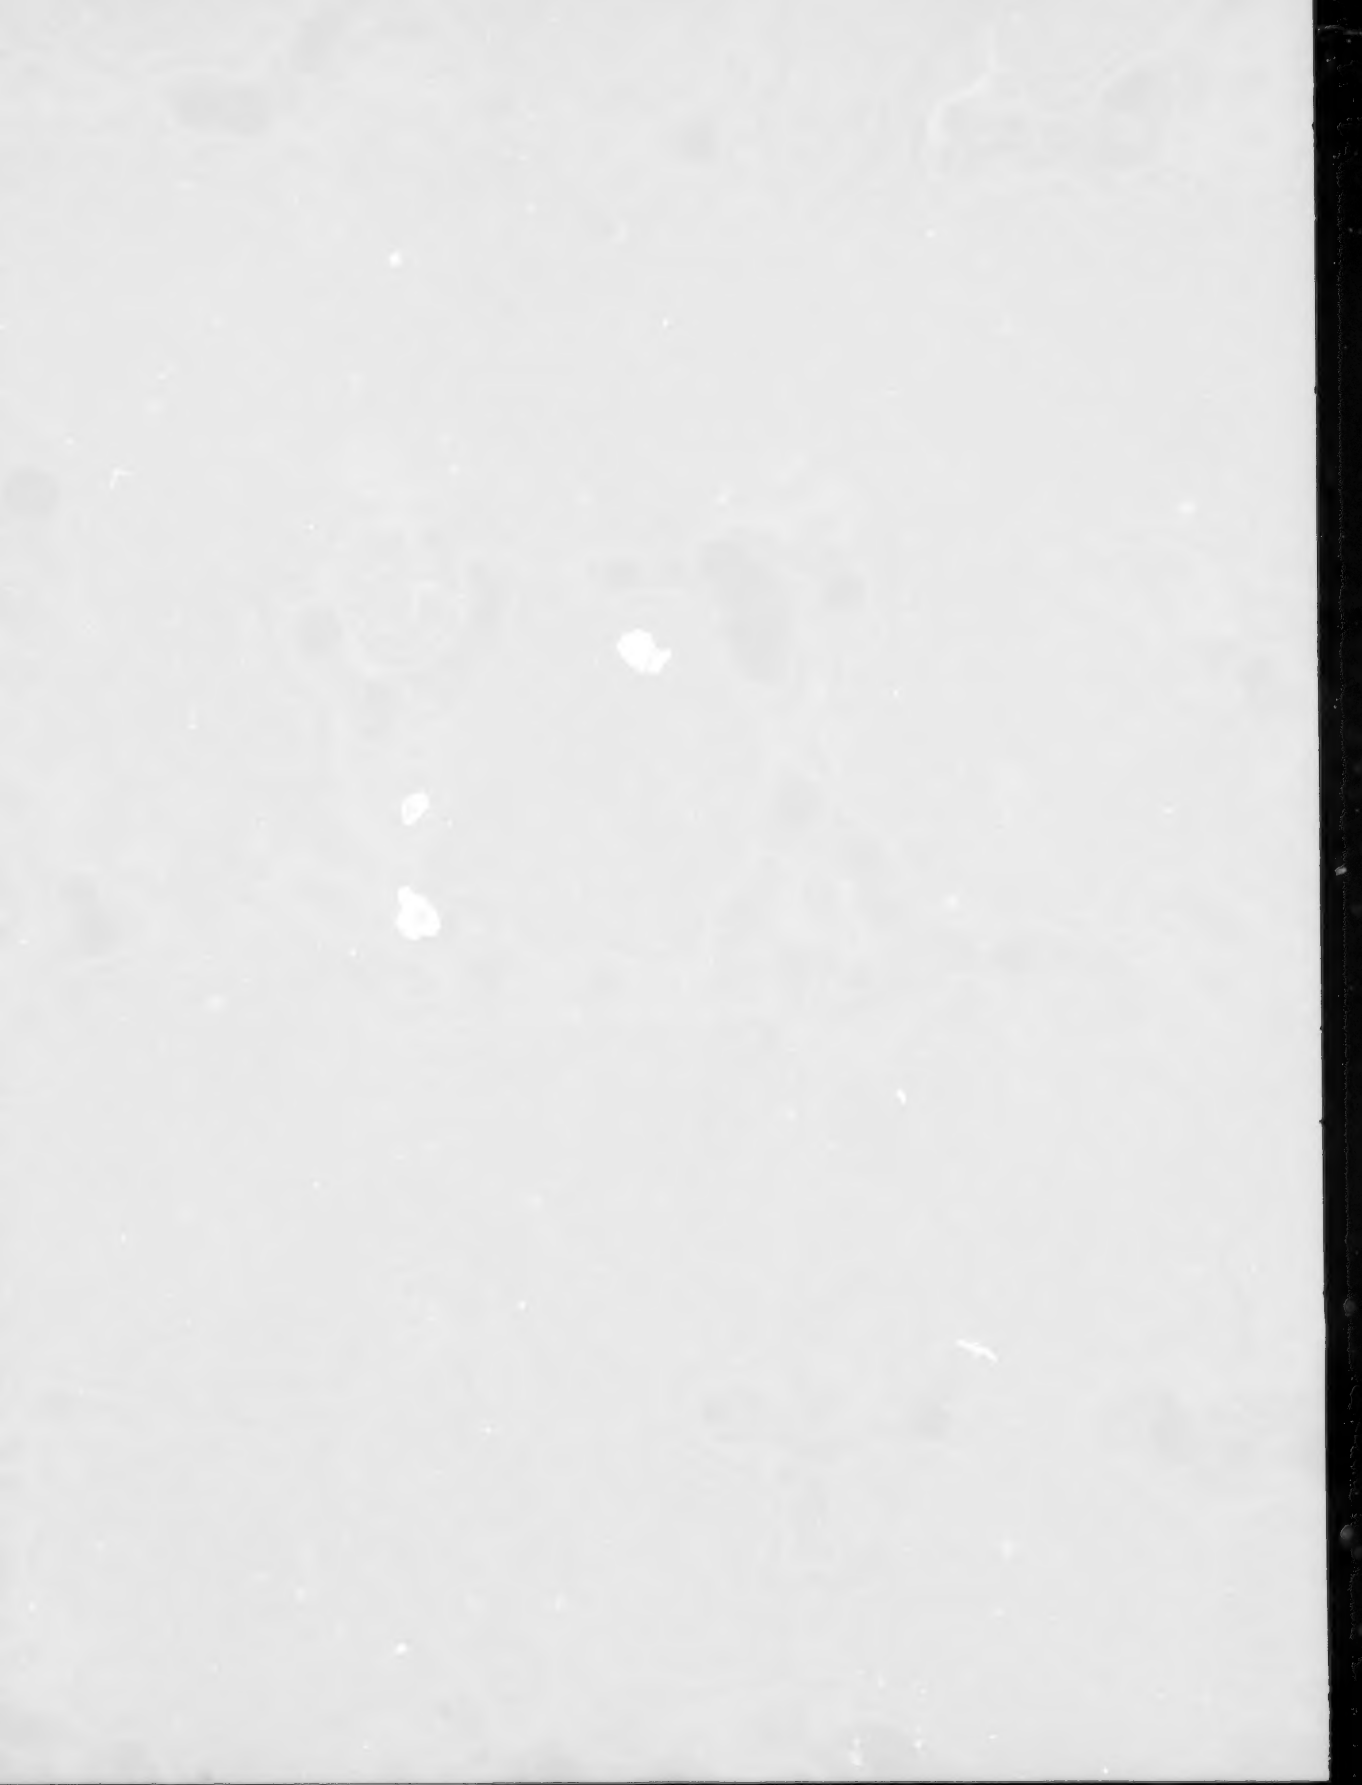

Instances where the sum of the male and female counts is not equal to the total given reflect cases where the sex was undetermined.

All of the tables were generated from the Vital Statistics computer system on an IBM 3800 Printing Subsystem. I wish to thank Dr. Sit-Tui Ong, Douglas Heiland, and Norma Harper of Research and Planning for their invaluable assistance in compiling and preparing this Review.

It is the Division's desire to continue producing Reviews such as this one in a manner which will best serve those interested in vital event information.
